

**Attending:** Brian Adams, Martha Cox, Kathleen MacLeod, Carole Morales, Myles Pomeroy, Kim Quinney, and Mary Thompson.

Seven of us met Wednesday, 12/6, to work through the wording of our grid laying out the approaches to the affordable housing framing.

### 1. Clarifying the Content

- We discussed the intent and scrubbed the wording of each approach.
- We agreed to move some items into the forums’ introductory comments and removed the “2-3 Facts” about each approach onto the Housing Snapshot fact sheet, if applicable.
- Once we’ve got the grid close to final, everyone is asked to circulate among their networks the draft with an explanation of our goal for community conversations. Important will be to circle back to some of the earlier “experts” we’ve consulted (Heather Foley, Ginger Hitzke, and Lynn Reaser).

### 2. Convening

- Kim shared her exhaustive research on venues, including potential partners in those venues (universities, libraries, San Diego 211, etc.)
- Addressing the ‘chicken & egg’ problem of WHERE & WHO, we agreed that seeking co-sponsorships and affiliates concerned about affordable housing would help ensure the forums’ diversity. Some ideas were a “pairing” between groups representing different approaches: i.e., Mid-City CAN and a group representing Kensington/Talmadge or community planning groups and the Downtown Partnership.
- The first few forums would “test” the process before planning a larger-scale roll-out.

### 3. Revisited Timeline and Next Steps

Original Timeline		Revised Timeline	
Aug	Finalize message to Idea Generators		
Sept	Engage with Idea Generators		
Oct	Receive & review idea proposals		
Nov	Consolidate ideas into booklet, slides, video. Review with Idea Generators. Preview with conveners.	Nov	Consolidate viewpoints into grid and slides. Finalize Fact Sheet. Review with Contacts. Preview with conveners. Identify people for videos.
Jan	Begin conversations	Jan	Review approaches with ‘experts.’ Finalize Fact Sheet. Identify co-sponsors; prepare forum intros & videos.
Feb-Mar	Test forums
